

Thursday December 11

TECH SHOW

Volvohallen – 10:00 until 15:30

Open to All – no registration required

EV / UX / ADAS

Aximote

BURG DESIGN
a KURZ company

DIADRÖM

icsense
THE IC DESIGN COMPANY

intoPIX

IONICS
surface technologies

KBComponents
VALUE THROUGH INNOVATION

MAGCAM
advanced magnet inspection

NiniX
Technologies

Nolato

punch
powertrain
Gear up for the future

TOKAI RIKAI

toptyte
by voestalpine

Tubtara®
BLIND RIVET NUTS

Innovation. Networking. Great coffee. Don't miss it!

Exhibitor overview

Company	Keywords / Focus Areas
Aximote	Real-time vehicle data analytics, Android Automotive OS, predictive maintenance
Burg Design	Functional foils, instrument panel design, customisation, 3D/2D decor, backlighting
Diadrom	Cybersecurity solutions for secure and reliable software updates
Icsense (TDK)	Custom automotive microchips, functional safety ICs, power management
intoPIX	Image sensor data compression, ADAS data, RAW/cloud compression, near-zero latency
Ionics Surface Technologies	Plasma-engineered surface treatment, ion implantation, corrosion/wear resistance
KB Components	High quality plastic injection moulding, including back injections, 2K, compression
Magcam	Magnetic field inspection, magnet quality control, R&D for electric motors
NiniX Technologies	Custom sensor modules, harsh environments, noise cancellation, reliability monitoring
Nolato	Advanced EMI shielding and thermal interface materials for superior performance
Punch Powertrain	EV, hybrid & conventional propulsion drives, scalable powertrain solutions
Tokai Rika	Intelligent cockpit, gesture control, trans-illumination, ECG detection, safety
Tubtara (Dejond Fastening)	Blind rivet nuts, battery packs, watertight/electromagnetic shielding, spacers
Toptyte (voestalpine)	Media-tight rotor/stator stacks, motor efficiency, sustainable steel processes
